This Boy Was 13 Years old
When The Vietnam War Started.

Seems like only yesterday,
doesn't it?
When there wasn't an endless war.
When a lot of kids were young.
And alive.
When a 13-year-old boy's
chances of dying in Vietnam were remote.
Think about it.
We've been getting out of
Vietnam for years now.
Isn't it about time we got out?
Let's not sacrifice another American
life for a war we've already abandoned.
Let's not put off until tomorrow
what's costing lives today.

We of the 1971 CHIEFTAIN have tried to portray the complex idea of life. Life with its innocence and corruption; its challenge and despair; and its fullness and emptiness. Through comparison and contrast, we hope to have shown that no matter how disillusioning life may seem at times that there is hope -- and that this hope lies within each of us.

Thank - you.

You're about to take a giant step forward into your future. We think we can make it the bright one you want it to be at New England Telephone. With a job that's every bit as big as your ambition. You see, we need people. With all kinds of talents. And especially, people who really want to get going with their future. And want to be rewarded with automatic raises. Your High School diploma is all the experience you need. If you want a job and a future that's tailored to your talent... along with unusually generous fringe benefits, stop in and see your guidance counselor. Ask when and where you can apply for an interview with the people who want to make your future as happy as you want it to be.

New England Telephone An equal opportunity employer

"You're about to take a giant step"

If I should meet thee
After long years,
How should I greet thee?
With silence
And tears.

Lord Byron
